

SNACK PACKS

We don't usually think of our own backyard as a place where children go hungry, but there is actually a great need within our own community. Summit Point Church is partnering with three local schools this school year to come alongside and provide 150+ students on the free or reduced lunch program with food at the end of the week. For many of these students, this could be the only meal they have for the weekend.

We will be gathering the food items on the back of this card from Sunday, February 7th through February 14th.
